

## QUINTE WEST MESSENGER

Hi to all you fellow members here is another edition of your District newsletter here in Quinte West AA District # 30 my name is Mark im an alcoholic and your newsletter editor for this district.

Been along time between editions I know though at times our creativity takes a back burner for abit though yes does return.

As a District we have been moving along since the last print nothing to dramatic happening as we have key people in key posts that keep us well informed of all of AA happenings that effect our fellowship as a whole. Miles our DCM is doing a great job keep up the great work Miles . We unfortunately couldn't put together our own district round up like others have though with some great foot work found an up coming solution to this problem. We decided to focus a round up with our sister district #34 based up our hidden secret with is service our theme this will occur on August 27 th . Where will this occur at the West Minister Church in Belleville flyers will be posted soon. We are wishing for members of our district to get active in this and show our spirit by turning out for a planning meeting on July 7<sup>th</sup> which is this Thursday by the way at 10 Hope Crescent in Belleville at 7pm. Come on out fellow District Members as we try to make this happen through unity.

As a district we could use some help at our table with Co operation of the Professional Community as it has been a seat vacant for a little while now. If you are a member in either both the west and east sides of our district willing to carry the message in this manner by all means we could use your help. Held the chair myself for a term and a half and what did I do well I with the help of GSRs try to make sure doctors lawyers. Police government offices and employers had literature and a contact number on how to reach us in case help was needed by someone with a drinking problem. Was a great learning experience which one really never knows how to do properly tell its time to pass the post on to someone else.

Don't have an article to add to this right now though check your group bulletin boards of upcoming AA events as at meetings we suggest join a group get active in that group as it allows us all to mingle together in turn all our AA meetings alive and well with in District 30 til next time stay sober have a great summer .

Your Editor  
Mark B.
